DETAILED ACTION

Response to Amendment

1. The objection to the title is withdrawn in view of the amendment.
2. The objection to the drawings is withdrawn in view of the amendments.
3. The objections to the claims are withdrawn in view of the amendments.
4. Applicant's amendments, filed 2/28/05, with respect to claims 1-6 have been fully considered and are persuasive. The rejection of claims 1-6 has been withdrawn.
5. Claims 1, 3 and 5 have been amended to more clearly claim the invention as a text to speech synthesizer with a facial character reading assignment that determines whether a symbol is a facial symbol by using a outline symbol table, extracts symbols used in the facial character strings, uses a character symbol table to assign facial characters to the characteristic symbols and outputting readings using a reading table to count the number of appearance of characteristic symbols in facial characters. The prior art on record does not teach or suggest this combination as stated in the applicant's remarks.
6. Claims 2, 4 and 6 are allowed because they further limit the limitations to which they refer.
